Printing Information

Artwork

Please provide your logo artwork in vector format with fonts outlined in a eps or pdf. Our graphics department can recreate your logo if needed. A large clean image provided will give best results when recreating your logo. We can reduce or enlarge your art to fit any of our packaging products. Art charges printing limitations can be discussed after we have seen your art.

Printing Plate Information

One zinc and one rubber plate is needed for all bag and box printing. Plate charges will be quoted on an individual basis and will be billed at cost. Approximate charges are \$2.00/sq. inch for printing plates with a minimum charge of \$65. Separate plates must be made for Hot Stamping.

Hot Stamping

Magnesium plates are needed for all bag and box hot stamping. Plate charges will be quoted on an individual basis and will be billed at cost. Approximate charges are \$2.50/sq. inch for hot stamp plates with a minimum charge of \$65.

Problem areas when printing or hot stamping which will cause unsatisfactory results:

1. Borders around a logo.
2. Thick lettering combined with fine line lettering.
3. Reverse logos with heavy coverage.
4. Screening combined with solid lettering.
5. Two color jobs, registration can move up to 1/2" depending on the logo and product type. Art must be approved prior to accepting order.
6. Printing on White Kraft Shoppers using heavy ink coverage is not recommended. You get a blistering effect with the ink, due to the fact of printing over smooth and rough areas of the uncoated paper.
